This is another notice created with **GD Forum Notices Pro for bbPress** plugin, displayed only on the forum main index page. Each notice can include multiple rules for showing notices in different areas of the forum, and display them differently.

Notice and fieldset obey styling from bbPress, but you can add your own class to modify the styling the way you need it. The plugin fully support GD Quantum Theme Pro for bbPress and all other bbPress plugins developed by Dev4Press. The plugin also allows you to configure date range for showing the notice, and that can be useful to announce time-sensitive information or deals.

GD Forum Notices Pro for bbPress is the seventh premium plugin released by Dev4Press for bbPress powered forums, with license price starting from \$29.00 for single website installation. The plugin is also part of the Dev4Press Plugins Club and bbPress Plugins Club membership licenses.
