UPDATED PLUGIN RELEASE: SWEEPRESS PRO 3.5 / LITE 2.0

A year-old plugin has received the latest feature-packed update.

Niš, Serbia, March 10, 2023. Dev4Press today announced the release of a new SweepPress Pro 3.5 and SweepPress Lite 2.0, the latest in the series of updates to the popular WordPress database cleanup plugin. Over the past year, SweepPress has gained many new features and expanded its number of sweepers (currently 33 for Pro and 30 for the plugin's Lite edition), and this latest release also includes many updates and fixes.

The screenshot displays the SweepPress plugin interface. On the left, there is a sidebar with the 'SWEEP' logo and a 'Selected Sweepers' section. The main content area shows the configuration for the 'Inactive User Signups' sweeper. It includes a search icon, a list of records (16 records - 292.23 KB), and a progress indicator (11.34%). Below this, there is a section titled 'Remove all inactive records from the multisite user Signups database table.' with a list of bullet points explaining the purpose and limitations of the sweeper. A red button labeled 'Run Sweeper' is visible in the sidebar. The bottom of the interface shows the 'Inactive Signup Records' section with 22353 records and a size of 1.69 MB, with a progress indicator of 37.32%.

New Sweeper for removal of Inactive Signups

Over the past year, SweepPress Pro has been expanded with several major new features: support for the GravityForms plugin with 3 new sweepers, Sweeper Monitor that sends daily and weekly notifications when the sweeping threshold is reached (number of records and size percentage for removal), Database

Overview showing a list of all tables in the website database with detailed information about the space and with options for direct optimization, Log File for logging all the executed SQL queries during sweeping. SweepPress Pro and Lite both got a few more new sweepers, updated and improved interfaces, and various performance updates and improvements, and with each version, bugs were fixed.

Finally, SweepPress documentation has been expanded, and now includes a user guide, many new articles, references, and a few new FAQ entries. With all that, the goal is to provide more information and to better educate users to take the advantage of the plugin's powerful features.

For more information about SweepPress Pro, its list of features, useful links, documentation, and more, please visit the plugin landing page: [sweep.press](https://www.sweep.press).
