Plugin integration into the block editor.

CoreSocial Pro can integrate into WordPress automatically to add share buttons, or it can be used with shortcodes and blocks for the block editor. Plugin also adds the floating share block attached to the screen for visibility on every website page. There are many settings available for customization of the share and profile blocks, with additional features including a share log, a button for Like, a button to display QR Code, and a button to share via email.

For more information about CoreSocial, a list of features, and related articles, please visit the plugin home page: plugins.dev4press.com/coresocial.
